EXPERIENCE

Freelance Backend Developer · Self-Employed

Jan 2025 – Present

- Architected and deployed custom RESTful APIs for self projects using Django and PostgreSQL, reducing data retrieval time by 30% through optimized query sets.

PROJECTS

Blog Project · Python, Django, Django REST Framework (DRF), PostgreSQL, Docker, Redis, Django Channels (WebSockets), JWT, Next.js

- Developed a secure, role-based CMS using Django and DRF, reducing administrative overhead through automated content moderation workflows.
- Implemented a TF-IDF recommendation engine, boosting user engagement through personalized content delivery.

Student Guidance System · Python, Django, Django REST Framework (DRF), PostgreSQL, Docker, Redis, Django Channels (WebSockets), Git, GitHub, JWT, React

- Designed a scalable student-mentor platform with Django and React, supporting 4 user roles and secure JWT authentication.
- Engineered a real-time notification system using Django Channels and Redis, reducing message delivery latency by 50% for concurrent users.

SKILLS

Programming Languages: Python

Developer Tools: Docker, Redis, Git, GitHub, PostgreSQL

Libraries Frameworks: Django, Django REST Framework (DRF), Django Channels (WebSockets)

Core Competencies: Problem-solving, Team Collaboration, Time Management

EDUCATION

Kathmandu BernHardt College

Mar 2022 – Mar 2026

Bachelor of Computer Application (BCA)

Sainik Awasiya Mahavidyalaya Chitwan

Mar 2016 – Nov 2021
